

FLOOR SEASONS LTD

Engineered Plank Care and Maintenance Instructions

- Use a damp cloth to soak up spills and spots as soon as they happen. For tough spots such as oil, paint, markers, lipstick, ink, tar or cigarette marks, use acetone/nail polish remover and then wipe with a damp cloth. Always avoid allowing liquid's to stand on the floor.
- Regularly vacuum, using the hard floor attachment (not the beater bar), dust, mop or sweep the floor to prevent sand or abrasive dust accumulating and scratching the finish.
- Periodically clean the floor with approved hardwood floor cleaner. Make sure to follow the instructions on the packaging carefully. Floor Seasons can recommend the best product for your floor.
- Use a damp (never wet) microfibre floor mop or alternatively mist the floor with the water/cleaning product mixture and then use the dry microfibre floor mop to wipe the floor.
- Do not use oil based, wax, polish, or strong ammoniated or abrasive cleaners, steel wool or scouring powder to clean the floor.
- Do not wet mop the floor.
- Do not use any type of polisher.
- Use floor protectors on furniture legs etc, particularly furniture that is moved a lot such as dining chairs.
- Pay close attention too high traffic areas. If you notice wear and tear on the floor it may be necessary to apply maintenance oil to the floor to keep it fully protected. Floor Seasons can advise on the best product to use for your floor.
